Introduction

Token195 is an innovative blockchain-based token designed to revolutionize the fantasy gaming industry by integrating secure, transparent, and efficient cryptocurrency transactions. Serving as the primary utility and reward currency within the Play195 ecosystem, Token195 enhances user engagement, provides realworld value to virtual gaming experiences, and contributes to the broader crypto ecosystem.

Fantasy gaming platforms have experienced exponential growth, enabling users to create virtual teams composed of real-life athletes and compete based on actual game performances. This fusion of strategic thinking and sports knowledge offers an immersive and engaging experience for fans worldwide.

Despite their popularity, traditional fantasy gaming platforms often face challenges related to transaction security, transparency, and global accessibility. The integration of blockchain technology addresses these issues by offering decentralized solutions that enhance user trust and streamline operations.

Introducing Token195

Token195 is the cornerstone of the Play195 ecosystem, functioning as both a utility and reward token. Its primary features include:

In-Game Currency

Users earn and spend Token195 within the Play195 platform, enhancing gameplay and unlocking premium features.

Tradable Asset

Token195 can be exchanged for other cryptocurrencies or fiat currencies, providing real-world value to in-game achievements.

Secure & Transparent

Built on blockchain technology, Token195 ensures all transactions are fair, transparent, and immutable.

Reward Distribution

Tokens are allocated based on game performance, referrals, and community engagement, fostering an active and loyal user base.

Market Overview

The global fantasy sports market is experiencing significant growth, with projections indicating continued expansion in the coming years. The integration of cryptocurrency into this sector is revolutionizing how players earn, trade, and interact within the ecosystem. Key benefits include:

Fast & Secure Transactions

Utilizing smart contracts ensures instant and tamper-proof reward distributions.

Global Accessibility

Blockchain enables participation from users across the globe without the need for traditional banking systems.

Decentralization

Eliminating intermediaries grants users greater control over their funds and in-game assets.

Eliminating intermediaries grants users greater control over their funds and in-game assets.

Strategic Partnerships

Token195 has established key partnerships to enhance its ecosystem:

Spider Wallet

A non-custodial, decentralized crypto wallet offering secure storage and transactions for Token195 and other cryptocurrencies.

Play195 Platform

A fantasy gaming exchange that combines sports, strategy, and blockchain technology, allowing users to participate in various leagues and earn real crypto rewards.

Minting Model

Initial Minting

On Day 1, tokens for the Private Sale, Airdrop, and 1% of the Ecosystem Allocation will be minted, totaling 11.7 million tokens.

Monthly Minting

1% of the total supply (900,000 tokens) will be minted monthly and distributed across the various allocation segments.

Burning Mechanism

To promote scarcity and potential value appreciation, 5% of uncirculated tokens will be permanently burned each quarter.
